CCC MEN MUST VOTE AT LEGAL HOME, SAYS AT-TORNEY GENERAL

There has been quite a bit of controversy among political mind-ed people as to whether members of the CCC camps can vote in the townships in which their camps are located, some communities seeing an opportunity to take advantage of the additional voting strength. However this question was defi-

nitely settled recently when Bay-City, through its prosecuting attorney, appealed to Attorney General O'Brien for an opinion, and the opinion came back from him with the information that these men cannot vote in township or county elections, holding that they come under the same status as enlisted soldiers or sailors.

The term, "swan song," is familiar to all for a farewell performance. or the last creative effort of an artist. The allusion is to the song popularly believed to be sung by a swan when dying. The origin of the metaphor is found in the "Epigrams" of the famous Latin "Martial," probably Marcus Valerius Martialis, who is believed to have lived from the year 40 to 10% A. D. And a wellknown use of it is in Shakespeare's "Merchant of Venice."

WILL MANUFACTURE DISH. WASHING MACHINES

Vanderbilt Manufacturing Co. building at Vanderbilt was sold Saturday to W. B. Forsyth, Jr., of Chicago, and Howard Deming of Vanderbilt, and work was begun today in tearing out all the furniture machinery, and remodeling the interfor of the building in preparation for the machinery to be installed within the next few wacks for the manufacture of automatic dish washing machines.

Mr. Forsyth states that enough orders have been received for their dishwashing machines to keep the plant, employing around a hundred people, busy 24 hours a day for two years. It is expected to start manufacturing about 8500 machines a day.

Mr. Forsyth, who is the inventor of this small household dishwasher, came to the county from Chicago about a year ago, where he was in business, due to failing health, he states, and because he has felt so much better. "tutes ty his permanent home. The dish-wasner is patented by him, and he holds all patent rights.

The machine is operated by water power, attached to the sink faucets, and will take care of 32 pieces of china at one time, wash ing, drying, and polishing each machine will sell on the market at \$7.50. A special electric machine, where there is not hot wa-ter, will also be manufactured, and will sell at about \$20.00.

Jobbers have been contacted in Michigan, Ohio, Indiana, Illinois and Missouri, who have contracted for practically the entire output. It will be necessary to increase the output to take care of other state demands, according to Mr. Forsyth, which necessitate ad ditional buildings, and the employ ing of many more people just as rapidly as new territory is open-

# Hold Election

At the time of the Citizens Vil lage caucus held last week Tues day evening, a motion was made declaring this coucus equivalent to election, since there was but one ticket in the field. The motion was passed conditionally, so that in case it was not in according to the state laws, if still could be sured to election in the regular manner. ular manner.

Presecuting Attorney Meels F. Nellist looked up the law on the master and reported that such action could be had only in cases of primary elections when there was but one candidate filed for nomination for any one office. Thus in the case of this village caucus it does not apply, and, the regular election must be held, as usual. The village election will be held Monday, March 12th.

Grayling High wound up the regular schedule by plastering a couple defeats onto the floundering. West Branch outfit. The Regulars turned in a 36-13 win and the Reserves copped their game by an 8-5 margin.

Regulars proceeded to cut their opposition to pieces in a businesslike manner. The outfit played many political speeches that it is with impressive steadiness. It is wasn't just an individual scoring

> The Reserves won a 24-0 dethe Orange and Black avoided a shut-out and went into the lead by one point for a momentary most at once and Grayling went into the lead and stayed there. West Branch got a field goal in the first half and a free throw in the second half.

Smith of Houghton Lake refereed and after Binder of "the Branch" went out with a wrench ed ankle and Grayling contributed an impressive tumble for Doremire, Smith decided to kick into the excitement and twisted his own ankle. He went on after a time out, to hobble around and do a very creditable job of whistle

tooting.
Grayling fans took hope for the tournament from the way the team went in this exhibition.

The State Board of Tax ministration has amounced a new ruling on feeds for live stock and poultry. "Under this ruling," according to James E. Mogan, Managing Director, "all feeds that are used for the feeding of live stock or poultry for direct marketing purposes are sales for the purpose of resale and therefore are not taxable. That is, if a farmer is fattening live stock or poultry for sale to slaughter houses, meat markets, etc., it is considered to be a sale of feed for the purpose of resale, and therefore, according to the General Sales Tax Act, is not taxable."

"On the other hand," continued Mr. Mogan, "if a farmer or feeder has live stock or poultry that he is using for purposes other than for resale, that is, the producing of milk, eggs, wool, etc., the sale of feed to the farmer or feeder is a sale at retail and therefore is taxable."
